

BLOCKING SOLUTION FOR IMMUNOCYTOCHEMISTRY

8.975 mL	PBS
500 uL	Fish Skin Gelatin (Sigma)
25 uL	Triton X-100
50 mg	BSA
<u>500 uL</u>	serum from animal the secondary antibody was made in
10 mL	

Label and store 3 days maximum at 4 C

NOTE: This is rather stringent blocking solution so your antibody detection may be somewhat reduced, but signal to noise is generally enhanced.
