The Robert M. Berne Cardiovascular Research Center Presents

Annet Kirabo, D.V.M., M.Sc., Ph.D.

Affiliation: Associate Professor of Medicine, Clinical Pharmacology; Associate Professor in the Department of Molecular Physiology and Biophysics, Vanderbilt University Medical Center, Nashville TN.

Immune Metabolism of Human Salt Sensitive Hypertension

Salt sensitive hypertension is an independent risk factor for cardiovascular disease. This talk will highlight novel mechanisms in immune metabolism contributing to salt-sensitivity of blood pressure.

Thursday December 5th, 2024
11:00 AM-12:00 PM
MR5 Room 3005

****Refreshments served****

Hosted by: Ariel Polizio, PhD
