

Robert M. Berne CVRC Seminar

The Robert M. Berne Cardiovascular Research Center Presents

Jonathan Fuller, M.D., PhD

Affiliation: Associate Professor, Department of History and Philosophy of Science,
University of Pittsburgh

The New Modern Medicine

In this talk, Jonathan Fuller will share research from his book *The New Modern Medicine* about how epidemiology transformed scientific medicine during the previous century, including in areas such as cardiovascular and cancer care, right down to its fundamental concepts of causation and evidence. He will then discuss how current trends in research and society such as precision medicine and pseudoscientific medicine might upend this 'new modern medicine'
